

PRESS RELEASE

CM3 Building Solutions Awarded a Vendor Contract for Energy Savings Performance Contracts by The Interlocal Purchasing System (TIPS).

Fort Washington, Pennsylvania. March 28, 2022 – CM3 Building Solutions, Inc. has been awarded a Vendor Contract for Energy Savings Performance Contracts by The Interlocal Purchasing System (TIPS).

TIPS is a national purchasing cooperative that offers access to competitively procured purchasing contracts to its membership. Members include non-profit and governmental agencies such as public education organizations, higher education entities, and city or county governments. Similar to other cooperative purchasing programs, TIPS membership provides access to highly competitive products and services with quality vendors, as well as an efficient mechanism for fulfilling bid requirements.

“The TIPS vendor contract award illustrates CM3’s continued commitment to energy savings performance contracting,” states John Hollister, Executive Vice President. “Through TIPS, we can deploy energy efficient and facility modernization solutions for our customers via a streamlined purchasing process.”

Among the performance contract solutions provided are Lighting System Upgrades, Building Automation Systems, HVAC Mechanical System Upgrades, Roof and Window Replacements, Building Envelope Updates, Emergency On-Site Power Generation, and Renewable Energy Systems.

“Our approach is to serve as “Energy Consultant” for our customers,” notes Hollister. “We look strategically beyond the project at hand to deliver long-term facility modernization goals and energy efficiency planning.”

CM3 is also an Associate Member of the National Association of Energy Service Companies (NAESCO) and is approved by the Department of Energy (DOE) as one of their Qualified List of Energy Services Companies (ESCOs) through a process established in accordance with the Energy Policy Act of 1992. Firms selected for DOE’s Qualified List are eligible to perform Energy Savings Performance Contracting (ESPC) at Federal agencies. CM3 is one of only five Pennsylvania-based companies approved by the DOE on their Qualified List of ESCOs.
